

MISSING!

Andry José Hernández Romero

APPREHENDED: August 2024. Andry was waiting in Mexico, complying with US rules, after he applied for asylum in the US using the Homeland Security app. Homeland Security notified him to come to his scheduled asylum hearing in San Diego and he attempted to legally cross the border. **HE WAS DETAINED AS HE CROSSED THE BORDER.**

DEPORTED: March 2025. Andry was spotted in Trump Regime publicity photos of deportation flights to El Salvador. Guards were shaving his head as he was brutally processed for detention in El Salvador's maximum-security prison CECOT.

Bogus evidence of gang membership: Tattoos on his arms with crowns. Andry comes from Capacho, Venezuela. Capacho has a tradition of celebrations called "Three Kings Day" which is a carnival-like Epiphany celebration. He tattooed two crowns on his wrists to memorialize the celebration and his Catholic roots. The president of Capacho's Three Kings Day foundation states that many people have these tattoos and they are not considered gang symbols. No other evidence of gang association has been reported.

Andry has not been heard from since he called his mother in March 2025 to tell her he was being deported to Venezuela. Instead, he landed at the infamous CECOT prison in El Salvador.

Please bring Andry back.

Let him have his day in court.

The rendition of immigrants from US soil violated their constitutional rights. Please return all such immigrants to the United States and cancel your contract with President Trump to hold immigrants in your prisons. They need to have their day in court here!
